BEDSTEAD SECTION

Bedsteads Bedding Wire Mattresses

Whether you want a Bedstead at the lowest price ever quoted by any firm for a strictly reliable article, or a handsome polished brass-mounted bedstead, you will find it on the following pages. The latest up-to-date styles speak for themselves. Our designs are unique, and are being

manufactured exclusively for us
under special supervision.

The quality is backed by our guarantee. Great care is taken in the fitting of the dovetails to which the angle iron sides are fastened. They fit firmly, and will bear any reasonable weight.

A bedstead, as well as any other kind of merchandise, is only satisfactory when it will give good service, and as a bedstead is an article that in most cases is purchased

but once in a lifetime,

we do not consider it economy for anyone to buy an iron bedstead that is not constructed in such a manner as to be always reliable, strong and serviceable.

Only the best quality steel and brass tubing is used. We guarantee the finish of our Bedsteads the

best that can be produced.

The enamel is baked and heated to a very high degree of temperature, producing a finish which can be cleaned of finger marks or other soiling by simply washing with soap and water.

The brass work on a Bedstead is one of the most important features next to the material and construction. In our Bedsteads each rod, knob, and husk is burnished and polished until the surface is as smooth as a mirror,

and the lacquering is perfect.

The whole of the timber used in our wire mattresses is thoroughly seasoned, and will not split or warp, and is finished with best quality varnish. The corner construction is exceptionally strong, being

fastened with heavy iron bolts.

They can be used on either wood or metal beds as desired. The woven wire fabric is made of

English high-grade steel wire only.

Our bedding is made of new, clean and absolutely pure materials throughout. We manufacture our own bedding, and our

customers get the full benefit,
saving any middleman's profit.

In fact, we have given the manufacture of mattresses our closest, most conscientious and painstaking study with the idea of giving our customers a better-made,

rest-inviting, absolutely clean,

sanitary, and more comfortable mattress than is offered by other dealers, and at a considerable saving in price.

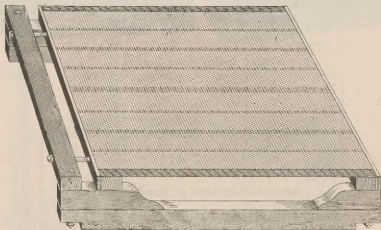

We invite careful inspection and challenge comparison.

THE . . . IMPROVED NEW CENTURY The Best Family SEWING MACHINE in the World

If you know
a
Perfect
Sewing
Machine,
inspect
these
Machines
at
all our
Showrooms.

No. 209. Automatic Lift. 6 Drawers—(open).

The Improved NEW CENTURY

Sewing Machine we offer is the most modern, complete and up-to-date Sewing Machine ever offered to the public at a very moderate price.

We keep expert machinists, so that all our machines are thoroughly tested before leaving our warehouse.

We offer you a family Sewing Machine at a moderate price. We make our terms to suit our customers, and in suiting them we also suit ourselves, and thus mutual satisfaction is the result.

It is the latest production in Sewing Machines.

It is the outcome of brains and mechanical skill.

It will last a lifetime, and will do any class of work, from the finest to the coarsest.

It is the Highest Grade Machine at a moderate cost.

Attachments—

These Machines are equipped with the famous TOOF Metal Case Foot Adjusting Attachments, generally conceded to be the best attachments made. There is no Ruffer manufactured that will compare with the TOOF. All attachments are supplied with the NEW CENTURY Sewing Machine.

We carry full Stocks of
Needles and Duplicate Parts.

Special Features—

SHUT back at centre of shaft.

Take-up positive; quite independent of needle bar.

No lift to shuttle when passing through loop.

Disc tension (more reliable than flat tension).

Needle bar capped and packed with twine, which retains oil and prevents it running down on to needle.

Self-setting needle.

Self-threading shuttle.

Interchangeable needles.

All parts interchangeable.

The attachments are the celebrated Toof Metal Case Set.

Toof Attachments are acknowledged to be the best in the world.

Obtainable only from

MARCUS CLARK & CO. LTD.

Our Terms are 10/- Deposit, and 2/6 Weekly

Wholly set up and printed in Australia by John Sands Ltd., Sydney
